Intelligent pool systems

# Proven performance for effective cleaning and circulation.

## Reliability you can trust.

The G4 cleaning head sweeps pools clean and improves circulation with a powerful jet of water, earning its formidable reputation for legendary performance and reliability. It is also the world's most flexible cleaning head with a selection of four easily-adjustable nozzle sizes to suit every pool.

*Style, flexibility and robust performance*

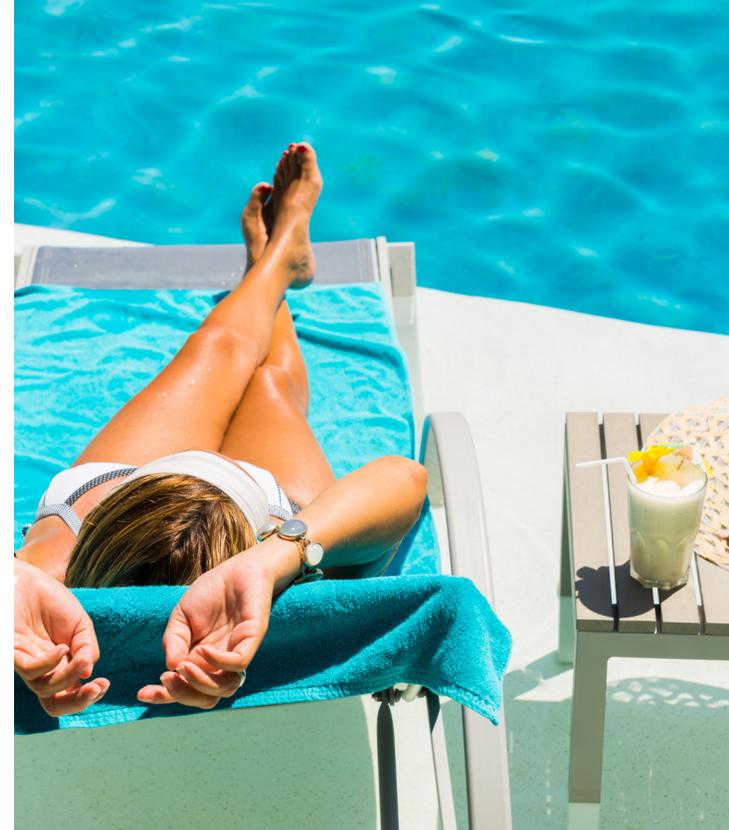

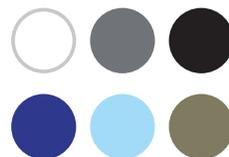

*Improved system filtration*

*Cleaner and healthier water*

*Increased heating efficiency*

*Creates more even chemical distribution*

The Cooke Industries G4 cleaning heads are available in six stylish colours so they blend seamlessly with all interior finishes and colours.
